[Despatch Abstract.]

intensive khadi scheme - Elimination of private producers of and dealers in khadi in belt areas around the I.K. centres - Proposals to reduce the size of the belt areas - Dropped - Papers

FIRKA DEVELOPMENT DEPARTMENT

The proposal in this file relates to the question of reducing the size of belt areas around the seven Intensive Khadi Centres. In G.O. Ms. No. 2857, Firka Development, dated 13.9.1947, the Government directed that the activities of private producers and dealers of khadi should be eliminated in the Intensive Khadi Centres and their belt areas. There it was expected that the A.I.S.A. would be able to cover all the belt areas around the Intensive Khadi Centre and buy up all the yarn produced in them. But, it was represented that this expectation has not been realised and as a result the production in the belt areas has suffered considerably to the disadvantage of spinners and weavers of those areas. The H.R.V.Os. and the Regional Firka Development Officers (North and South) were consulted in the matter.

2. It is submitted that at the conference held in Hon'ble Premier's chamber on 5.9.1949 at which the representative of the A.I.S.A. was present, it was agreed that the proposal to reduce the size of the belt areas might be dropped. In the circumstances no further action seems called for on this question. It is for orders whether the H.R.V.Os. and Regional Firka Development Officers may be informed of the decision taken by the Government.

The papers may be recorded.
